Joseph Shiel has known the presence of Spirit in his life since he was an infant. After years of struggle with misunderstanding the incredible value of his gifts, he emerged to embrace his talents as a Medium, Healer and Spiritual Counselor.

He has worked with world renowned teachers in Catholicism, Spiritualism, Buddhism and other spiritual modalities to enhance and utilize his natural abilities. He continues to develop and use his gifts to a high level of integrity to serve others and honor God's Grace. Joseph commits himself fully to the communication with Spirit by being factual and evidential. He works to enhance and educate everyone to have an understanding of the importance of this life and the continuity of life hereafter. Joseph is an expressive artist who with guidance from Spirit has been able to draw likenesses of loved ones who have passed on to the Spirit plane. These drawings are recognizable and usually quite accurate. After their session, clients have graciously provided Joseph with photographs of their loved ones to confirm and show his accuracy.
